SUMMARY

A Lead Frontend Engineer with 5+ years of experience in building enterprise-grade web applications, skilled in React, TypeScript, and scalable frontend architecture, and looking to make a meaningful impact.

EXPERIENCE

Lead Engineer — Rapid Innovation LLP (Remote)

APRIL 2023 – JAN 2026

- Architected **large-scale React applications** and frontend systems, reducing architecture inconsistencies by **40%** and improving long-term maintainability.
- Led frontend engineering across **design reviews, code reviews**, architecture decisions, and developer mentoring, reducing UI bugs by **45%** and improving PR merge time by **30%**.
- Implemented a **Figma MCP-based design-to-code pipeline**, enabling pixel-perfect UI and reducing design rework by **35%**.
- Drove **cross-functional collaboration** among design, backend, and product teams, accelerating feature delivery by **25%**.
- Introduced **structured workflows**, reusable component patterns, and standardization practices, cutting repetitive engineering tasks by **40%**.
- Integrated **AI tools** (Cursor, Copilot, ChatGPT) into the development lifecycle, **saving ~30–35 engineering hours** per sprint, reducing test-writing time by **90%** and PR review time by **60%**.
- **Skills:** React, TypeScript, Next.js, Frontend Architecture, Design Systems, Micro-frontends, Figma, Performance Optimization, Code Reviews, Mentorship, Agile/Scrum, AI-assisted Development

Software Engineer — Rapid Innovation LLP (Remote)

JUNE 2021– APRIL 2023

- Delivered highly interactive frontend features by collaborating with **UI/UX teams**, improving design consistency and user experience.
- Built **blockchain-enabled DApps** and **NFT platforms** by integrating **smart contracts, REST APIs**, and **GraphQL**, enhancing data reliability and app performance.
- Developed **scalable**, responsive, **reusable components** with an Agile mindset, improving developer velocity and reducing rework.
- **Skills:** React, TypeScript, JavaScript (ES6+), GraphQL, REST APIs, Web3, Smart Contract Integration, Responsive Design, Component Architecture, Agile Development.

Frontend Developer— Alnitek Innovative Solutions (Remote)

APRIL 2021 - MAY 2021

- Engineered a **no-code chatbot builder platform** using **React** and **Material UI**, allowing businesses to build and deploy chatbots without technical expertise.
- Implemented **drag-and-drop workflows to simplify** bot creation, reducing setup

time for users.

- Delivered **end-to-end chatbot lifecycle** features covering build, test, deployment, and performance analytics.
- **Skills:** React, Material UI, JavaScript, Drag-and-Drop Interfaces, Component-Based UI, Frontend State Management, UX-Focused Development

Web Developer— Bitmap Technology, Pune, M.H. (Internship) JUNE 2019 - MAY 2020

- Built websites using React.js, HTML, and CSS
- **Skills:** React.js, HTML5, CSS3, JavaScript, Responsive Web Design

SKILLS

Frontend Development:

React.js, Next.js, TypeScript, JavaScript (ES6+), Redux, Redux Toolkit, React Query, React Testing Library, Styled Components, HTML5, CSS3, Apollo GraphQL

Backend Development:

Node.js, Express.js

Tools & Platforms:

Figma, Jira, Netlify, Render, Firebase, Supabase, SonarQube

AI Tools Used:

ChatGPT, GitHub Copilot, Cursor AI, Qodo (formerly Codium), Tabnine, Roo Code

EDUCATION

Sinhgad Academy of Engineering, Pune, M.H.

AUGUST 2017 – MAY 2020

Bachelor of Engineering (Computer Engineering)

Grade: 8.3/10 CGPA

Shri Sai Polytechnic, Chandrapur, M.H.

JULY 2015 - MAY 2017

Diploma In Engineering (Computer Engineering)

Grade: 80.88%
